EXPERIENCE

Software Developer   June 2022 – Present
DXC Technology

- Developed talent management system with Angular, Spring Boot, SQL, implementing JWT tokens and guards to fortify security.
- Architected robust APIs and user-friendly UX for quarterly revenue and loss comparisons, boosting efficiency by 25%
- Designed a POC for an internal project with collapsible designs, enhancing transparency and efficiency by 40%.
- Facilitated and led weekly client meetings with meticulous attention to detail, actively engaging to the aggressive deadlines and crafting the most precise tailored solution to their needs.

Intern   June 2021
IBM

- Developed a responsive frontend for a car rental website using HTML5/CSS3.
- Leveraged CSS frameworks like Tailwind and Material UI resulting in a friendly UI/UX experience

EDUCATION

KIET groups of Institution, Ghaziabad   *July 2018 – July 2022*
Bachelor of Technology, 85%

PROJECTS

ConnectED / *Angular, Figma, Spring boot, PostgreSQL, Docker, SonarQube*

- Developed a full-stack web application using with spring boot serving a REST API with Angular as frontend.
- Enforced JWT for the secure flow of data between application along with role-based authorization.
- Incorporated concepts like lazy loading, async programming, debouncing for smooth flow of data.

Pant Chat/ *React, Node, Socket.io, Firebase, SonarQube, Express, Material UI*

- Implemented robust user authentication and registration processes using Firebase, ensuring secure access and data protection.
- Integrated Socket.IO to facilitate real-time, bidirectional communication, providing users with instant messaging capabilities.
- Employed Material-UI for React to design a sleek, intuitive user interface, enhancing the overall user experience with a modern aesthetic.

TECHNICAL SKILLS

Languages: Java, SQL (Postgres), JavaScript, HTML5/CSS3
Frameworks and Technologies: React, Node.js, Material-UI, Angular, Git, Spring boot, MongoDB, Slick-Grid, Tailwind, Bootstrap
Tools and Platforms: JIRA, Figma, Postman

ACHIEVEMENT AND RESPONSIBILITY

DXC Technology

- Lead performer in the team of 11 people.
- Identified and eradicated bug bolstering security and preventing data loss
- Earned a token of thanks from the client for exceptional delivery of the deliverables within aggressive deadlines.
